

Project Submission Checklist
Embedded IOT Systems Fall 2025

Project Title: Smart Medicine Box

Group Name: 6

Class: BSAI

Date: 5-january-2026

1. Group Members and Assessment Record

Sr. No	Student Name	Registration No.	Individual Participation	Marks filled by (Instructor)
1	Laiba Taseen	23-NTU-CS-1258	ESP 32 hardware interfacing	
2	Rabia Naseer	23-NTU-CS-1275	Cloud Integration	
3	Malaika	23-NTU-CS-1291	Dashboard design	

2. Project Files Submission Status

Sr. No	Submission Requirement	Status (✓ / X)
1	Final project report submitted in PDF and PPT format	
2	Source code uploaded (GitHub repository or ZIP file)	
3	Recorded project presentation uploaded	
4	Hardware Kit submission	

3. Documentation Requirements (PDF Report)

Sr. No	Documentation Component	Status (✓ / X)
1	Title page with project and student details	
2	Problem statement and objectives	
3	System architecture / block diagram	
4	Hardware and software description	
5	Methodology and flowchart	
6	Screenshots of output and dashboards	
7	Results, conclusion, and future scope	

4. IoT and Technical Compliance

Sr. No	Technical Requirement	Status (✓ / X)
1	Node-RED used	
2	MQTT protocol implemented	
3	HTTP protocol implemented	
4	Cloud platform used (Specify)	
5	Dashboard displays correct data	
6	No runtime errors	

5. Viva Voce Evaluation (Instructor)

Sr. No	Evaluation Criteria	Status (✓ / X)
1	Able to explain project confidently	
2	Understands code and logic	
3	Ready for live demo	
4	Submitted before deadline	
5	Correct platform used	

Note: Clearly mention any comments, issues, or problems related to the project on the reverse side of this page.

Two (02) copies of this page are required at the time of hardware submission. One copy must be properly attached and securely taped with the hardware kit.
